

STAKEHOLDER BRIEFING – Q4 2025

MODULAR DEPLOYMENT | STRATEGIC PARTNERSHIPS | FIELD-DRIVEN INNOVATION

MISSION & VISION

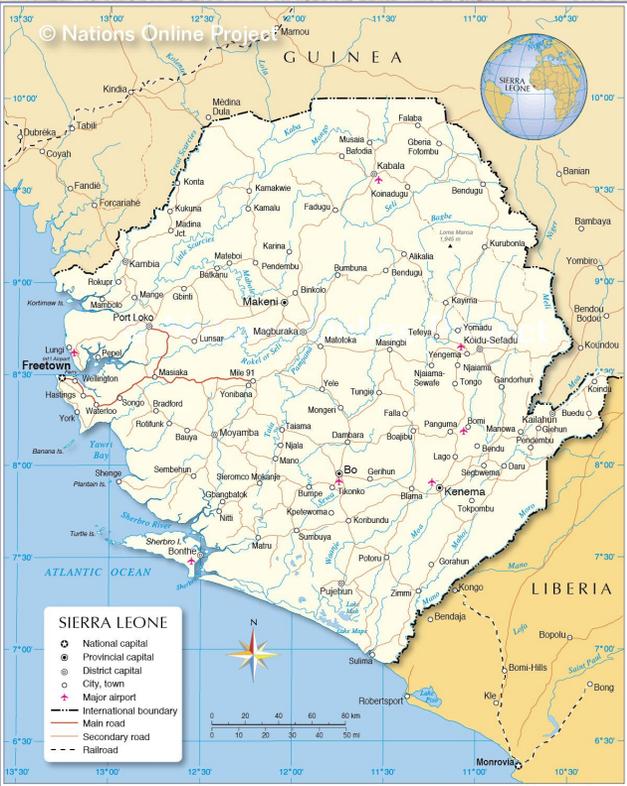

- **Mission:** Build resilient, locally-empowered drone logistics networks in emerging markets.
- **Vision:** Set operational and regulatory standards from the ground up through strategic engagement and modular innovation.

DEPLOYMENT FOOTPRINT

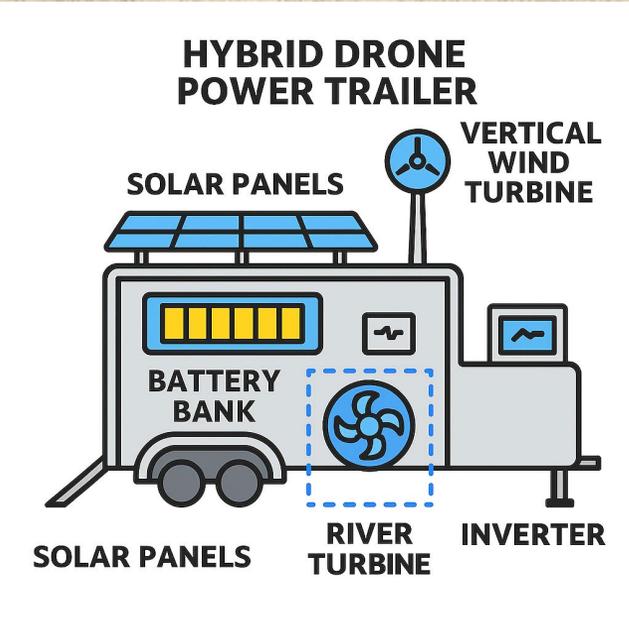

Strategic corridors mapped for sample delivery, mining integration, and energy resilience.

MODULAR INFRASTRUCTURE

Field-adapted infrastructure: mobile, scalable, and energy-integrated for rapid deployment.

Source	Available Energy	Max Deliveries / Drone
Solar	18 kWh/day	12
Wind	12 kWh/day	8
River Turbine	22 kWh/day	14
Grid	25 kWh/day	16

STRATEGIC PARTNERSHIPS

Multi-year agreements in motion—anchored by legal clarity and operational leverage.

OPERATIONAL MODEL

Doctrine-driven operations with local training, safety-first workflows, and scalable throughput.

RISK & COMPLIANCE

Risk mapped. Compliance embedded. Resilience engineered.

 Risk	 Mitigation
Legal	Working with Aton Path's Government group to assure all laws and regulations are followed
Operational	Autonomous and robotic systems to remove human element
Environmental	Utilize alternative energy for Droneports, electric drones and moving tons with a single drone

NEXT STEPS

Deployment-ready. Stakeholder-aligned. Let's move.
